Our Ref: **FOI2026/00529**

12 June 2026

Dear [REDACTED]

Thank you for your Freedom of Information (FOI) request received on 14 May 2026. You wrote:

Greetings,

Redica Systems submits the following Freedom of Information request: an electronic listing of all inspections conducted since January 2026, structured in line with the response previously issued under FOI2025/00519 (See attached).

Format: .XLSX and/or .CSV as an equally suitable alternative.

Requested fields:

Inspection-level — case_number, inspection_category, site_operator, number_of_critical_observations, number_of_major_observations, number_of_other_observations.

Site-level — party_site_id, site_name, address1, address2, city, postal_code, country.

We would also greatly appreciate the inclusion of the following three fields. They are genuinely useful to us — they prevent us from submitting follow-up requests for reports that do not yet exist or will not be produced, which we know creates avoidable work on your side as well:

- Report Available (Y/N)*
- Report Status (e.g. Issued / Draft / Pending Close-Out / Not Required / Not Applicable)*
- Report Issued / Close-Out Date*

Any clarification questions may be directed to [REDACTED] and will be answered promptly.

Thank you for your assistance.

MHRA Response

The Agency has completed its search for the information you have requested, and we are able to confirm that we do hold the information you have requested.

Please note that we are unable to provide the below three fields in the spreadsheet as these are not captured in our database in such a way that we can readily generate this information

- Report Available (Y/N)
- Report Status (e.g. Issued / Draft / Pending Close-Out / Not Required / Not Applicable)
- Report Issued / Close-Out Date

In order to support the maintenance of data integrity, the datasets have been issued in PDF format.

If you have any queries about this letter, please contact us quoting the reference number above.

Yours sincerely,

MHRA Central Freedom of Information Team
